

Garland ISD 2019 High School Band Audition Packet

The Garland ISD High School Band Audition process will consist of the same music for all high schools. Each school will conduct auditions at their own location and/or at their selected middle schools. Band websites may contain more information.

ETUDE: The district audition etude is designed to be played by all instruments; however, slight changes may occur. Make certain you are playing the correct etude for your instrument. Play as close to the prescribed tempo as possible, as much of the etude you can play.

Percussionists: Contact your HS for concert and drumline audition information. You must perform the band audition as well as your school's drumline audition.

SCALES: "Middle School All Region Scales" will be used, however, additional octaves are encouraged. Prepare all of these scales, including the chromatic. Each high school may select scales to be played in addition to the etude for their audition. Select a tempo that provides the best technique and accuracy.
